### A. BACKGROUND

On 06 April 1994 I was in Rwanda with the second Battalion.

There I had at the functions of Doctor in the South zone.

To carry out my mission, I was at “DON BOSCO” (technical School).

There I was the only doctor to carry out this mission.

### B. ATTACK

On the evening of 6 April 1994, I was at the infirmary and I heard the radio over the battalion network.

I did not see the two missiles nor hear the explosion of the aircraft of the PRESIDENT.

It was a little before 20.30 hours that I heard over the radio network, that the radio operators at “TOP GUN” were signalling that an approaching aircraft had just been hit near the airport. At that time no one was talking about the aircraft of the PRESIDENT but rather of the firing of two missiles.

Some fifteen minutes later, Major DAUBRESSE visiting with Dr PAZOUCK signalled over the battalion network that he had seen two missiles leave the KANOMBE camp and hit the approaching aircraft.

Afterwards I heard over the same network that the PC “PEGASUS” was signalling that according to the PC “FORCE” it was not an aircraft but a munitions depot at KANOMBE camp that had exploded.
