**Re:** Case X (Blue Helmets)  
Article 62 biz CIC (if necessary)

**MEMO**

Please interview Frank Durinckx of the security service of the ministry for communications on the subject of the information according to which France is allegedly in possession of the black box from the presidential aeroplane. Has he received additional information on this subject, does he know where this box is currently and whether the French authorities have examined it or conducted an inquiry (where appropriate, please ask him to specify which authority has allegedly performed these duties).

With thanks in advance and my highly distinguished consideration.

Brussels, 14 September 1995

The examining magistrate

Damien Vandermeersch
