1. The HQ of the Force continues to work on planning for the integration process. Today, 27 January, it would normally have an important meeting at Ngondore (km 64) with General Dallaire, the Head of FAR and Gd, and the men from FPR, Kagame. They have to negotiate the choice of Assembly Points, Billet Points, Integrated training centres, and fix a new demilitarised zone.
2. Mutinies are mentioned in the prisons of Rwanda following lack of food. Here in Kigali it is feared that the rebellion will also break out in the overcrowded prison and that dangerous criminals (the most dangerous are in Kigali prison) might escape.
3. This morning at the seat of the MRND at Kimuhurura, there was a meeting with the directing committee of the party in the presence of Mr Robert Kajuga, president of Interahamwe. I still do not know the decisions but I am expecting them at any time.
4. It is the same for the meeting of yesterday at the Primature with Agathe, Faustin, Lando, the Minister of foreign affairs and the president of the Constitutional Court.
5. Contrary to what General Dallaire stated during his press conference, Radio Rwanda mentions in the report of yesterday's incidents, persons injured by bullets fired by the FPR.

From another source, Jean-Baptiste Ngarambe was killed and there were six others injured.

6. Radio RTLM also broadcast the following message in Kinyarwanda after the events of yesterday.

“With the assistance of Belgian troops, Tutsis once again have killed Hutus. What is the point of the presence of the Belgians in our capital if it is not to help Inkontanyi seize power? Col. Marchal has often been seen with Landuald Ndasingwa, what are they talking about, if it is not plotting against the Hutus. We know that among the Belgian troops of the MINUAR, there are murderers, and bandits and thieves taken from the streets of Brussels. A large number of them do not even have any training or education. While they make their money, they have nothing to do with Rwandas. MINUAR is full of doubtful persons, and
